UML CLASS DIAGRAM REPORT

Project Title: Hospital Management System

Classes

Patient, Doctor, Appointment, Prescription, and Bill are the main classes of the system.

Relationships

Patient (1) -> Appointment (0..*); Doctor (1) -> Appointment (0..*); Appointment (1) -> Prescription (0..1); Patient (1) -> Bill (0..*)

Diagram Explanation

The UML class diagram models the core entities of the Hospital Management System and illustrates their associations and multiplicities.

Conclusion

The diagram demonstrates the object-oriented structure of the system and supports effective hospital information management.
